Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Ex parte Quayle

1. This application is in condition for allowance except for the following formal matters:

IN THE ABSTRACT

2. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The abstract of the disclosure is objected to because it is merely a recitation of the structural limitations and the abstract should be limited to a single paragraph. Rather, the Examiner respectfully suggests the Applicants to amend the abstract so that it reflects the novelty of invention and design details of apparatus should not be given. Correction is required.

IN THE SPECIFICATION

3. The disclosure should be carefully reviewed and ensure that any and all grammatically, idiomatic, and spelling or other minor errors are corrected. For example, on page 3, line 4, reference to "INENTION" should read -- INVENTION--. Correction is required.

4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance: claims 1-9 have been found allowable over the prior art of record since while the prior art of record teaches a thermal development apparatus for developing a film for thermal development having a heating drum which has at least partially cylindrical surface for transporting and heating the film along with a plurality of pressing rollers provided parallel with each other along the outer peripheral surface of the heating drum for pressing the film onto the partially cylindrical surface of the heating drum but the prior art of record either alone or in combination, neither discloses nor makes obvious the combination of a thermal development apparatus /or image recording apparatus where the pressing rollers and the partially cylindrical surface of the heating drum are specifically designed for satisfying conditions as recited in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Made of Record

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kashino et al (U.S.Pat. 6,400,446), and Sumi et al (U.S.Pat. 6,672,719) each of which discloses thermal developing apparatus comprising cylindrical heating drum and pressing rollers. These references have been cited for technical background.
